Question 1. Find Maximum and minimum marks score by Every students.

Ans: - We are going to use Max And Min function to find the maximum and minimum marks of each students.

So, Using Max(C2:H2) and MIN(C2:H2) we are getting above values.

Question 2.Calculate the totals for each student, use conditional formatting to highlight the top students who have scored more than 480.

Ans: - We are going to use SUM() function to add all subjects marks to find out the total marks obtain by induvisual students

formula SUM(C2:H2) or Ypu can use Sum(C2+D2+E2+F2+G2+H2+)

Question 3.Calculate the length of the names of each student.

Ans: -To calculate the length of a string without considering blank spaces in Excel

you can use the LEN function along with the SUBSTITUTE function to remove the blank spaces before calculating the length.

LEN(SUBSTITUTE(B2," ",""))

Question 4.Replace the Name Rakhi with Rocky. Use Formulas

Ans: - To replace name with another name you can use substitude funtion in excel.

SUBSTITUTE(B7,"Rakhi","Rocky")

Question 5.Combine the Roll Numbers and Names. Use formulas. The end result should look like below.

Ans: - To combine the Roll Numbers and Names using formulas in Excel, you can use the CONCATENATE function.

Here's how you can do it:CONCATENATE(A2,B2)
